

PRESIDENT'S MESSAGE

SALLY LUK

Dear Fellow Rotarians:

I am pleased to announce that Rotary Club of Tai Po is now recognized as Rotary Peacebuilder Club in District 3450. We could be located and connected with other peacebuilders worldwide by using the Peacebuilder Clubs Map on the RAGFP webpage:

<https://fortress.maptive.com/ver4/24302f895012af8567977b1afe45efd>

President-elect Wilson Woo and I have joined the Rotary Action Group for Peace (RAGFP) since August 2020. Moreover, our District is moving forward to support the first local rotary action group under RAGFP. The Rotary Positive Peace Academy (<https://rotarypositivepeace.org>) provides a free online training course for all Rotarians who are interested to build and sustain peace. There are eight pillars of positive peace which interact in complex ways. You could equip yourself with better knowledge and useful framework to participate in Rotary's work in peace and conflict resolution. According to Dr. Johan Galtung, a Norwegian sociologist who is considered the Father of Peace Studies, he promoted his original Positive Peace idea that *"we're trained to think of peace as reducing or minimizing violence – as taking away the bad. But if you want sustainable peace, you have to work on promoting the good!"* In other words, this is rather an empowerment by creating the condition of well-being and harmony for all.

So, the science of individual well-being would be very important firstly to our own mental health and secondly to build up the positive peace in our community. So, how to boost up our own inner peace and happiness is the key, and this is totally under our control. Savoring and Gratitude are two simple ways. Appreciate the happening while it's happening and being thankful for the experiences we're having as we're having them. This helps us to be mindful and enjoy every moment of our lives as a whole. Having a daily Gratitude Journal by writing down or taking snapshot photo about the things we are grateful for would be a powerful boost to our immune system. This could lower our stress and blood pressure while increasing our mood with a stronger feeling of social connection.

All in all, instead of asking and seeking others to change, we have a choice of peace in our heart by listening and doing good to others. As a Rotarian, it is our cause to promote peace through service and fellowship, so please stay tuned and join our club Peace community service projects. Last but not least, I would like to share with you all a Catholic song lyric which I love:

Make me a channel of your peace
Where there's despair in life, let me bring hope
Where there's darkness, only light
And where there's sadness, ever joy

Oh Master, grant that I may never seek
So much to be consoled as to console
To be understood as to understand
To be loved as to love with all my soul

With love,

Sally

EDITOR SAYS

CLAIREE MAK

The starting sentence in President Sally's first President's Message in the July 2020 issue of Tai Post is an overt "I love Tai Post!" Well, that's very flattering. Thank you.

As a matter of fact, upon the commencement of this Rotary year, the Editorial Board had actually met Pres. Sally over lunch to discuss changes and new ideas. One point in issue is whether and if so how many copies of this monthly club bulletin should be printed out. This goes towards the embedded habit of our readers. Asking our readers to click onto our club website, look for the "Tai Post" tab and locate the update issue is, frankly speaking, not at all difficult. But members were so used to be handed a hard copy to flip and turn during our dinner meetings that it looks like a hell of a job to request them to click onto the web-link on one's initiative. It is not really about money or ability. Most members are just simply not bothered to. It is ... troublesome.

If something had not been routinely done, and it has to change - one has to really make an effort to do it some other way - it is troublesome. To have to take action is troublesome. The very thought of having to change is troublesome... To have to do something purposefully can be very troublesome. So one tends to stall the action. Do it later ... better do it some other time? Gradually maybe it will go away. It is like some rather useless services which you had never made use of but let it roll on and on... To take action to cut the service is time consuming and disrupts the routine. In short, it is troublesome

This brings up another thought. One of my friends had suddenly grew a moustache. I asked if that's for any purpose. The Movember maybe? His answer was simple "Is there anything done which is not purposeful?" I said maybe he was just lazy with shaving. And his reply is interesting: "Even if that's the case, am I not doing that on purpose for laziness sake?" It is like a philosophical assertion on the 'cost of life'. If you do something on purpose, you put your life on doing something which is most worth your effort at that moment. If you do not, then you are refusing to waste your life and effort on something which has no certainty.

You think doing something on purpose is troublesome? Well, like it or not, I am afraid we are living and doing a lot of things on purpose. It is simply what we choose as worthy of our opportunity cost and is worthy of life cost. I come to realise that very often those matters which are not troublesome do not really worth one's effort; and life is too short to ponder on worthless matters.

But I have digressed quite far. Back to printing Tai Post. President Sally says she is more concerned about the environment and that she prefers to go paperless if at all possible. Some die-hard fans of Tai Post still prefer flipping hard copies and having the same for keepsake. It is also more impressive to hand a readable copy to guests at our physical meetings. Well, while the debate continues, we print a reduced amount of the bulletin to satisfy the obstinate ones. Just let me know if you fall into that group; and until we meet face-to-face, happy reading!

Rotary doing good during the pandemic

RI news Aug. 2020

The Rotary Club of Saint-Denis, Réunion, and the Inner Wheel Club Saint-Denis Vanille, Réunion, France, bought computers and tablets with wireless routers to give to a local nursing home to enable family members to connect with residents while the home was closed to visitors due to the pandemic.

The Rotary clubs of Almere and Almere Weerwater, Netherlands, purchased 2,600 bouquets totaling 52,000 tulips to give to health care workers at 77 locations in Almere.

The Rotary Club of Bensheim-Heppenheim, Germany, provided a two-hour virtual musical concert for residents and caregivers in senior living homes. Bruno Weis, a member of the club, and two colleagues performed from areas outside the facilities while residents watched from the safety of their balconies or nearby park benches.

The Interact Club of Kayhi, Alaska, USA, held a virtual high school prom for more than 500 students with help from a [radio station](#) that is managed by a Rotary member. The club paid for a band and conducted dance and trivia contests, with prizes from local businesses

The Rotary Club of Downtown Los Angeles, California, USA, built and stocked a dozen public bookcases around the city so children and adults would have better access to books. People use them to both take and give books. The libraries reach areas without many sources of books, especially when public libraries are closed.

The Rotary Club of Molina de Segura, Spain, which holds an annual art contest for children, extended the age range to allow entries from children 3-18 years old and invited students throughout the country to submit artwork that expressed why it is important to stay at home during the pandemic. The club's objective was to give students something to do while social distancing and allow them to express how they were feeling about the pandemic.

Kenya, Africa, has a thriving flower industry, but during the lockdown, many large-scale flower exporters and small-scale growers have been unable to sell their blooms. Rotary members in District 9212 partnered with other organizations to purchase and distribute flowers at five different hospitals. The goal was to show appreciation for the health care workers but also support the growers and let them know they are a valued part of the community.

Manila city was lockdown since March 15 when many public transit stop. In response to the need for safe transportation for health workers, **Rotary Club of Makati West** Rotarian Elmer Francisco - chief executive and chair of a jeeps & vehicles manufacturer - donated 10 vans to transport frontline health workers to hospitals in and around Makati and the capital city, Manila. Rotarians also coordinated with officials at the Department of Transportation to obtain permits to operate the fleet and plan the most convenient routes for riders. Helping lab employees shelter near work Members of the Makati West club also worked to provide lodging for medical professionals. The club helped secure 30 days of accommodations at area motels for nearly 50 lab technicians and workers at the Research Institute for Tropical Medicine, which conducts COVID-19 tests.

Giving 2,600 bouquets to show appreciation to health workers in Netherlands.

Providing free transportation to health workers in Manila.

Free virtual musical concert for residents and caregivers in senior living homes in Germany.

FLASHBACK

September Birthday Stars Celebration

Our birthday stars with their gifts from 17-18 Pres. Roger at "Septemberfest" theme night at King Ludwig Beerhall in Tsimshatsui 15 Sep. 2017. Thanks to former member Benjamin Wong for inviting his German friend to join us and he led us to perform a German dance. Rotaractor Scarlet was very excited and got quite drunk that evening!

Our "Sep. birthday stars" ladies with celebrity chef Ricky Cheung at his private kitchen Le Mieux Bistro French restaurant in Wanchai, 16 Sep. 2013.

Our birthday boys & girls (including kids) cake cutting during our BBQ night at Li Po Chun International School, Sep. 1997. The school was our partner in an English Enhancement Program for newly arrived immigrant so we selected the venue for the party.

A look back of our club's past activities by topic

September Birthday Stars Celebration

Birthday celebration during our special meeting with key note speaker Consul General of the Democratic People's Republic of Korea (North Korea) 23 Sep. 2019 at Choi Fook Royal Banquet Hall in TST. Big thanks to PP William and PP Wilson for arranging such unique speaker and inviting about 35 guests from Small Medium Enterprises to join.

At "Full Moon Taipo" theme night 14 Sep. 2015 at L'Hotel in Wong Chuk Hang where we celebrated mid-autumn festival. There was also a Chinese painting / calligraphy performance. Indeed, an ink-painting was one of the raffle gifts.

Birthday celebration during fellowship night at the club house in team leader Dennis Lo's home in Shatin on 9 Sep. 2011. Glad that many family members and Rotaractors participated. Peter was still holding his beer after the beer drinking contest!

PETER LAM

Rotary Open Membership Opportunity Forum

22 August 2020
Kenneth Wong

Background:

The world is going through an eventful and challenging year since decades. The prevailing social unrests, Coronavirus pandemic, economic and financial chaos resulting from ferocious Sino-US trade conflicts have aggregatedly turned our way of life upside down. All countries are being hard-hit by this triple whammy. It is apparent that our Rotary world has no immunity against the above global illnesses.

Until quite recently, in compliance with social distancing regulations, Rotary Clubs in D3450 could only hold regular meetings online and a few clubs have even ceased having meetings altogether.

Fellowship and Service which are the hallmarks of what we do as Rotarians have grounded to a halt, the activities of which help to bond us together and keep us strong through thick and thin.

The month of August is earmarked by Rotary International as the membership month when all Rotary clubs around the world are encouraged to focus their attention and action upon strengthening their club membership.

The above challenges were in our minds as the district membership committee went about the preparation of the district membership forum which titled "Rotary Opens Membership Opportunities" scheduled on the 22nd of August 2020.

Seize opportunities amid challenges:

Members of the **district membership think tanks** had a few meetings in early July. We viewed that the prevailing membership challenges at club level are communal to clubs in our district. Therefore, we have agreed on a few strategic focuses that would guide the preparation of district membership forum this year. We hope this forum could instill a strong spirit of unity amongst all rotary clubs in D3450 in tackling their challenges in members retention and recruitment and to share the knowledge, successful practices and experiences from Rotarians.

This is indeed a trying time for Rotary so trying we must.

Programs of online membership forum was built under the following guiding considerations:

1. It would be a virtual event, YouTube will be used during the open plenary session to disseminate keynote messages from RI President Holger, DG Eric, Membership forum Chair PP Amy Leung and district membership co-chairs PDG Kenneth and PDG HW on district strategic focuses citing new opportunities in strengthening membership. We also used zoom to host six breakouts sessions discussing membership opportunities arising from the Coronavirus pandemic.
2. The forum aimed to be inspirational, encouraging to participants, and render material benefits to Rotarians who care about building strong membership in their clubs as well as those who are passionate to share with others their good experiences and successful membership stories. Hence, we adopted the theme "Rise to the Challenges, Opening Opportunities."

Meeting at 7PM every Monday
@ Kowloon Cricket Club

Rotary Club of Tai Po
URL: www.rctaipo.org

#rctaipo

3. Opportunities emerged amid challenges, catalyzed by the Coronavirus pandemic, using digital technologies that have become more readily available to us, we contemplated the first ever online membership forum of D3450. Delivered in two media channels, one in English and one in Chinese, this membership forum was made accessible to Rotarians from Hong Kong, Macau, Mongolia and Shenzhen and in a much user-friendly fashion. Participants of the forum were given the opportunity to join two breakout sessions if they so desired.
4. To do more with less, since online forum incurs no cost of venue, no cost of refreshment. The budget of online membership forum is less than half of what was spent on membership forum in the last Rotary year, even taking into account the cost of almost 380 specially made backpacks (**designed by our very own talented Chloe Lam**) which were given away as free gifts to participants of the membership forum.
5. Full content of the membership forum was taped and uploaded to D3450 website so that Rotarians who could not join the forum on the day could also benefit by revisiting these videos. Videos are accessible using this QR code:

What happened at the online membership forum?

Following the opening plenary sessions on YouTube, Six breakout sessions highlighting Six implementable strategies or new initiatives that are pertinent to effective growth in membership at club level. These zoom breakout meetings were designed to introduce ideas and to stimulate active interchanges with participants. Breakout sessions were carried out in English and Chinese taking place at different time slots. Details of the Six breakout sessions are as follows.

1) How to grow Rotary organically?

Convened by DGE Keith, with PP Sunny Chen, Kelvin Mui, Michael Chan and Munkhajargal Ayurzana as panelists, the session discussed various possible ways of achieving organic growth of membership in clubs. The meeting noted that some best means to retain and attract members include organizing meetings with prominent speakers, impactful service projects, club strengthening, experience sharing and interesting fellowship activities, will help engage members and bring about organic growth in membership.

2) Satellite Clubs – Myths and success stories

Convened by PDG HW, with AG Anna Or, P Candy Cheung (from RC Neoteric HK) and Chair Terence Lau (from Rotary Satellite Club of Star Avenue-Inspiration) as the panelists, the session shared with attendees purposes and interesting features of satellite clubs. The meeting noted that it would benefit all parties (clubs, district and passionate people who wish to join Rotary) if more opportunities of setting up satellite clubs could be explored.

Meeting at 7PM every Monday
@ Kowloon Cricket Club

Rotary Club of Tai Po
URL: www.rctaipo.org

#rctaipo

3) To engage Rotarians and friends via digital platform

Convened by DGN Norman Lee, with CP Joseph Leung, PP Brendon Wong and IPP Elsa Wong as the panelists, the session discussed the usefulness of digital platforms in enabling rotary activities to continue to be conducted during the challenging pandemic period. With online meetings, we can invite speakers from anywhere in the world, which will help attract potential members. It is important for club and district leaders to encourage members to learn and embrace the new digital technologies. Online Academy through the RI Learning Centre is able to deliver Rotary Training anytime and anywhere.

4) Why Rotaractors become Rotarians

The session was convened by DRC Anita Chan and DRR Alan Yip, with PP Andy Li, DDRC Gabriel Wong, DDRC Delgertsetseg Bayarsaikhan and PDRR Joyce Lau as panelists. Exploring the issue from the perspectives of both the Rotaractors and Rotarians, the meeting recommended that it would be important for Rotary clubs and their Rotaract clubs to agree on the age limit applicable to the Rotaract clubs, particularly for Rotaractors taking an important leadership

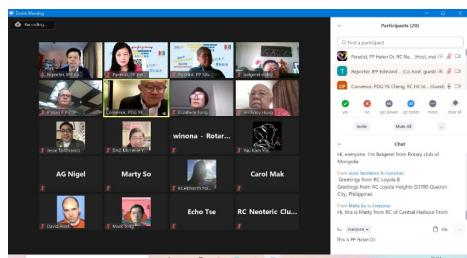

role at the club or district level. The meeting also considered it important for Rotary club activity plans to take Rotaractors into consideration, and likewise for Rotaract club activity plans to take Rotarians into consideration.

5) Embrace synergy between Rotary and Toastmasters

The session was convened by PDG Kenneth Wong, with District Director Wilson Yau of Toastmasters International District 89 and PP Agnes Lau as panelists. Besides exchanging information on organization structures, values and key activities of Rotary and Toastmasters, the meeting also discussed opportunities of cooperation between Rotary and Toastmasters and noted the strong synergy which could result. Both sides look forward to further communication and deepening of collaboration in the future.

6) Virtual Rotary Exchange Program

The session was convened by PDG YK Cheng, with PP Silva Yeung and PP Helen Or as the panelists. By sharing with attendees their great experience in Group Study Exchange (GSE) programs, and noting the significance of the Vocational Training Team (VTT) programs, the panelists highlighted the opportunity of developing a Virtual Rotary Exchange (VRE) program which would enable the GSE and VTT programs to be implemented even when traveling between districts

is not permitted because of the pandemic. The audience was interested in knowing the latest progress in the proposed VRE program and looked forward to its further development.

In total, 315 Rotarians, Rotaractors and friends from Toastmasters and JCI signed in and attended the forum.

Breakout sessions were well attended, each breakout topic engaged between 80 - 150 attendees.

MY FLOATING BAR - "ZHU LU 遂鹿"

Louis Tang

Together with my good friends, I had been shopping for a dream sailing boat in the boat market of Hong Kong and other cities since May 2020. We targeted a Beneteau Oceanic 43 in Malaysia only to find that despite having agreed on a bargain sale price, we could not consummate the sale because we could not find a way to either ship or get a crew to sail it to HK due to the Covid-19.

I am not sure if this was due to my birthday luck or not, we found a Bavaria 46 on sale in the market at a great bargain price just a few days before my birthday. The seller was an English lady who just retired and returned to the UK two months ago and was a keen seller. She asked for HK\$ 1.6 million, being 50% of the price she paid 5 years ago. Unbelievably, despite the perfect condition of the boat, we had a deal at a price of HK\$ 1.16 million.

The Chinese name of the boat is called "遂鹿", meaning遂鹿中原 (seeking championship in the heart of China). What an aggressive name.

This boat is 43 feet long and has a slim hull and modern machinery equipments. It is a German design which is capable of being controlled by a single captain or a small number of crew members. There is a fully battened roller furler main sail with square head and large roach and a roller front sail operated by a electric winch and 4 manual winches. There are garmin instruments and auto-helm. The boom is high enough to allow a canopy underneath so that people on board are well protected from sunshine.

On the deck is a spacious cockpit which allows friends to sit around the captain(s) at the helm on two sides of the stern. The cockpit table is electrically adjustable to form a sun lounger, fold-out dining table or double bed.

There is a swimmers' platform and a powered dingy which can easily be accessed from the platform.

There are huge windows on the sides and above the head in the high ceiling salon even for six-footers. So you can have a cocktail party therein under plenty of sun light.

With just 4 steps down from the deck you reach the salon where there is a functional kitchen and a bar corner.

The coffee table is very flexible and is electrically adjustable to form a fold-out dining table or double bed in next to no time.

This is the corner for the captain where there is a navigation table. Again, it is flexible to be lowered to form a bigger sofa for cocktail purpose.

Meeting at 7PM every Monday
@ Kowloon Cricket Club

Rotary Club of Tai Po
URL: www.rctaipo.org

#rctaipo

A very spacious cabin with an en suite bathroom.

This is a rear cabin which is a twin bedroom.

It was wonderful when we switched off the engine and drove the boat only with the fully fetched main and front sails. It was so quiet that we had a peaceful moment. I was driving the boat with my fellow owners, two of whom are pilots who can operate an Airbus #350.

The boat can take 14 people each time and we really enjoyed good fun with many good friends each and every time we go sailing. What a wonderful activity for a retiree.

My daughter was so happy after the sailing she gave me a big kiss.

There is always a sad moment in a boating trip when we have to return home near sunset.

We still keep our Bayliner speed boat and plan to use it together with our Bavaria 46 so that a big party can be arranged for friends in RCTP.

District Rotaract Installation Ceremony

Bond As One · Tie To Grow - 同・絆

13 September 2020

Claire Mak

The District Rotaract Installation Ceremony took place in the afternoon of 13 September 2020, Sunday and was conducted fully online to cope with the social distancing restrictions. The theme this year was "Bond As One · Tie To Grow – 同・絆".

The Installation started with DRC Anita and DRR 19-20 Hoimin jointly ringing the Rotaract Bell. The screen then showed memorable events of last year as the Rotaract song was broadcasted. This was followed by a number of speeches including Opening Remarks by District Governor Eric Chak, thank you note from IPDG Wilson Cheng, and a forward looking talk by District Youth Committee Chair Eugene Fong. The speeches praised achievements of the past year despite all the adversities and encouraged reinvention of aspirations for the new teams to Bond and Open Opportunities in the coming year.

The two persons who worked extremely hard last year relived with us their heartfelt experience. DRC Anita who is staying on for another year received acknowledgement and confirmation by the 2 DGs; while outgoing DRR Thomson Chow (Hoimin) presented a long thank you list. His 2019-20 team presented him with a Pot (for his favourite pastime – hotpot meal) at the risk of thwarting his dieting plans.

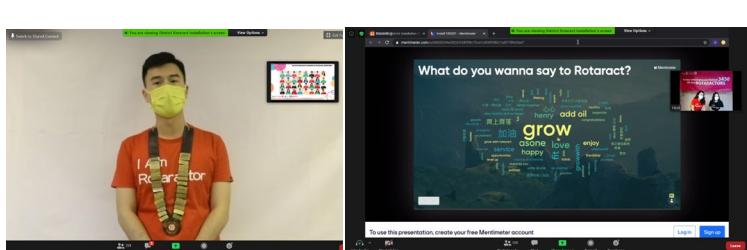

Then came the 'light-hearted' official change-over of all the important people at District Rotaract in "marriage" manner. The background music was the wedding march and, mimicking a civil celebrant, District Youth Committee Chair Eugene

Fong asked "the couple" Hoimin and Alan to take their oath to serve Rotaract to the best of their ability for better or for worse; in sickness and in good health. They sealed the relationship with the passing of the Rotaract belt. The incoming teams (Rotarians and Rotaractors) also took an oath.

Then DRR Alan gave a preview of his plans for the year and introduced his Board. Best wishes to all those involved in Rotaract in the coming year!

Assistant Governor's Visit

24 August 2020
Claire Mak

On 24th August, 2020, we welcomed Assistant Governor Frank Chan of Rotary Club of Kwai Chung to our meeting; and with him were Deputy Assistant Governors Joseph Yim of RC New Territories and Stanley Yuen of RC Tsuen Wan. As the Governor's representatives, normally they would be accorded with hearty reception by RCTP members; but since we were on the Zoom platform, all we could offer were but friendly banter.

The meeting started a bit early (when President Sally was still in hospital) in order to accommodate AG team's packed schedule. President Sally efficiently did the usual reports on past events and notices of upcoming matters. AG Frank then took over and noted the healthy development and planning of our club to which he made references when he dutifully addressed us on RI and District's initiatives, with a strong focus on District goals and emphasis.

The 2 Deputy Assistant Governors spoke respectively on the District Grant and the Membership Challenge.

Area 6 Joint project (Rotary Life Planning Programme)

- Interview Workshop / Mock Interview Dec 2020 / Feb 2021
- Career Expo May 2021
- Work Experience Programme Late Jun 2021

Budget Total \$165,000 (\$15,000 per club)

ROTARY PEACE ACADEMY

This certifies that Sally Luk has successfully completed that Rotary Positive Peace Academy training course.

Steve Killelea A.M. Founder & Executive Chairman, Rotaract International

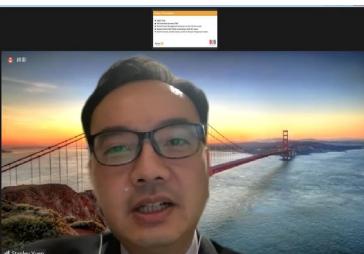

INSTITUTE FOR PEACE rotarypeaceacademy.org

Area 6 Joint WASH project

School water project at San Pua Primary School, Tolo Chong Location: San Pua Village, Tolo Chong Village, Pak Tam Chung, Tai Po District, New Territories Drinking source: Two ponds in front of the school for drinking water

School water project at San Pua Primary School, San Pua Location: San Pua Village, Tolo Chong Village, Tai Po District, New Territories Beneficiary: 540 students Drinking source: Rain water and underground water source

Budget Total \$10,000 (\$5,000 per club)

District Grant scoring criteria

- Impact on Community
- Sustainability
- Originality
- Cost effectiveness
- Public Image
- Social Concern
- Embracing changing times
- Exemplifies your Club's mission and vision
- Engagement of Rotarians and Families
- Amalgamation (enhance collaboration within Rotary family)

Membership

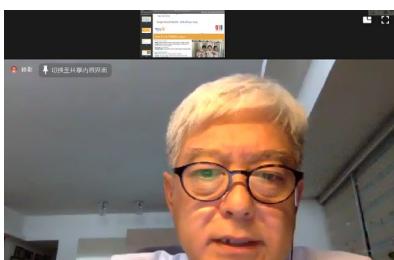

- Aim at achieving a net gain of 2 new members per club
- For the net gain of one member, an award of HKD1,000 will be given to the club of implementing a service project.
- Maximum award of HKD1,000
- Proposals of new members will be duly recognised with souvenirs from the District Membership Committee

NEW ROTARY AREA OF FOCUS:
Supporting the Environment

Rotary

On the topic of Joint Area 6 Project, AG Frank introduced the Rotary Life Planning Programme and the Joint WASH project, the latter of which elicited constructive questions from PDG Kenneth.

We then moved onto the more light-hearted part of the meeting - lucky draw. The Raffle gift of an UV & Ozone Sanitizer Phone Charger from VP Danny was won by PP Peter. Adding to the happiness of the occasion, AG Frank spontaneously offered a bottle of red wine for a further lucky draw and it was won by lucky PP William. We then toasted to everyone's good health before the meeting was adjourned.

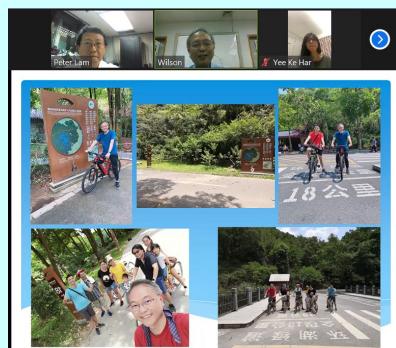

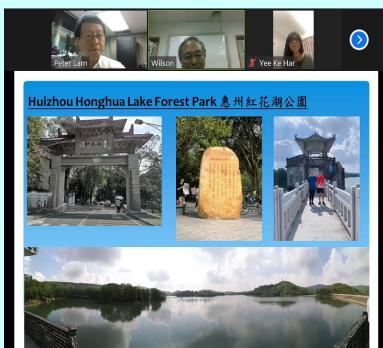

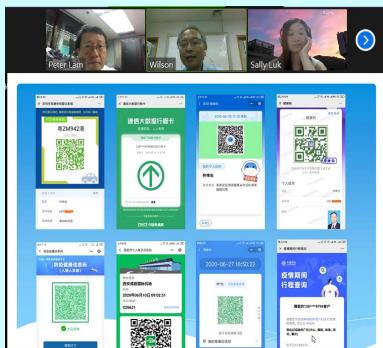

REGULAR MEETINGS

a detailed recount of the places he had visited, showing us photos he had taken; gave a bit of historic background and updates of the current development and above all, his sentiment after the visits. The conclusion he has derived is that China will surpass other countries in the next decade.

17 August 2020

PP Wilson Lam, who was experiencing a 5-month *exile* brought about by the quarantine requirements, made good use of his time travelling in the PRC. He thus spoke to us about "**Travel In China**" and gave

PP Claire gave out an **Electric Facial Cleanser** for raffle draw and lucky one who shall henceforth have a clean face is **PE Wilson Woo**.

Toasting to everyone's good health.

7 September 2020

We were glad to have some special guests joining us: Taipo Rotaractors Jodhy, Gary and baby Isaac; WYS Rotaractors Edward, Sandy & Tracy; and also Armstrong's 2 grandsons Adrian and Addison!

Speaker Mr. Talis Wong introduced ways to effectively put our messages across when he spoke on "Tactful Communication for Better Relationships."

Former Rotaractor Yuky Tam (now in UK) and PE Wilson Woo raised questions for our speaker. Wilson also won the raffle prize of a pair of glass ornaments from PDG Kenneth.

14 September 2020

Members gathered for discussion of club affairs at the Club Assembly.

PP William gave details of the upcoming Theme Night which Team 1 co-organises with RC Peninsula.

Dr. C M YU gave a timely box of Maxim's mooncake for raffle draw and the PP Louis emerged the lucky winner.

Club Assembly Agenda

1. Annual Ball
2. Members' Attendance for Zoom Meeting
3. Incentive Scheme for Membership Promotion
4. Theme Night
5. Progress of forming Satellite Club
6. Online Academy
7. AOB

PE Wilson Woo led the discussion at Club Assembly and members contributed different ideas.
