Monthly Bulletin of Rotary Club of Tai Po (Oct 2012 Issue)

## President's Message

Ronald Chung

In my last message, I warned you of how busy we were going to be for the month. Since then, we did not get to have a meeting together with our own beloved Rotary Club of Tai Po bell, but it only felt like last week! That's how busy we have been... Perhaps it was just a lot of good time together? Can you name them? The 919, the Poolside fellowship, the RC Taipei's Charter Night, the 1010 ...?

Looking forward, there may be another set of events staring down on us. Nov 4<sup>th</sup> is the District 10K Race. Nov 9 is our great RCTP tradition's CP Birthday Dinner, so our meeting on Nov 12<sup>th</sup> is moved. After that, two more meetings in Nov and it is December – I think I am on pace of setting a record of being the Rotary Club President that presided the least meetings.

It may sound a little early, but the current board, following our club's tradition, has set Dec 3<sup>rd</sup> as the Club Election date, so do think ahead on who you want to lead the club going forward (yes, I can start thinking of becoming an IPP – Irrelevant Past President – soon.)

While it doesn't seem that we have been meeting much, but this board has not been neglecting its work. During the month, we have actually made much progress with service projects.

1. We have launched TWO projects with the New Territories Heung Yee Kuk Tai Po District Secondary School: Sunshine Teens and 潮看Teen 空.
2. We have also launched a NEW project that will build a dance team of Tai Po with marginal youth, partnering with youth outreach team that has been working with us on the Star Reaching Project. In fact, this project joined a district level signing ceremony on 929, thanks to our own DG Ken and PDG Tony's effort.

3. We have also met to work with our RAAS as well as Interact school, TCCA, and committed to work with them on a career expo to be held on Nov 17. We need your presence in this one talking to students on how to build a career in your area. Our own ex-member Joshua Yau will also be attending to say hi and catch up with everyone.

4. Talking about Interact, PP Ping has worked hard to set up a potential NEW Interact school for us, and we have met with the principal of a potential school on Oct 18th. Let's hope for some good news.

5. In addition to a NEW Interact Club, we are also working on a potential U-base Rotaract Club at Wu Yee Sum College of Chinese University. In a meeting on Oct 15th, we met with Prof Rance LEE, Master of Wu Yee Sum College, Prof Sunny KWONG, Dean of General Ed., Dr. Nicole CHEUNG, Asst Prof, Sociology and Prof. Diana LEE, Chair Professor, The Nethersole School of Nursing and also Ms. Sandy Lee.

So, if Rotary is about fellowship and service, RCTP certainly has accomplished A LOT. Please give yourself a round of applause and close your eyes and rekindle what you have done in the past month and savor it.

Tomorrow is a brand new day with brand new opportunities and challenges. Please do mark these dates for opportunity and challenges... Do remember Oct 29<sup>th</sup> is the visit by Tai Po's District Officer. Can someone say 10K (or even better, run... on Nov 4<sup>th</sup>?)

## Editor Says ... ..

Claire Mak

“**Internationality**” best describes the happenings in the recent months of September and October.

First, we have DG visit to our **Mongolian** members. A sizable group of Rotarians, RCTP members included, joined the trip and had made a few new friends and found out a lot more about these far away members of our District.

Then we have our **Japanese** RI President honouring us with his visit to Hong Kong and we seized hold of this opportunity to have this 82-year old leader attend / officiate a number of worthwhile

activities, namely launching of the Rotary coach, meeting our Rotaractors, inducting new members during Intercity Meeting in his honour ... etc.

Not too long thereafter, a group of RCTP members and spouse flew to **Taiwan** and attended our sister club RC Tai Pei's 64<sup>th</sup> Charter Night. The joyous adventure started with whisky and good food at PP Ampo's “cellar” where members of the two clubs dined, sang, danced and mingled. Then it was the joyous German feast at their Charter Night. Of course, golf was thrown in and the ladies went on shopping spree! Pres Ron even joined in

their District Swimming Gala! Whew!

Before I pen off, I must apologise for one oversight. In the last issue of Tai Post, I have missed our delectable Vikky from the September birthday list. She actually has her birthday on 21<sup>st</sup> September - the same day as Patrick Fong! I wonder if that's one reason why she succeeds Patrick as a most dutiful Sergeant-at-Arms! Now we have two pairs within our club having same birth days: Natalie and Claire on 17<sup>th</sup> September; Vikky and Patrick on 21<sup>st</sup> September!

We then received the visit of RI Trustee Wilfrid Wilkinson. This **Canadian** former RI President (of the *Rotary Shares* year) came and gave moving speeches about the good works of the RI Foundation, recognized Rotarians who supported the Foundation and of course, appealed for our District to do even better. For RCTP, our new recognitions go to DG Kenneth and PP Louis (Major Donor III), PP Matthew Yum, PP Wilson Lam and DS Peter Lam (Major Donor II); Paul Harris Society members Rtn. Sasha Chu, PP Wilson Lam, PP Man Mo Leung, IPP Masayuki Tsubaki; Bequest Society members PP Wilson Lam (level III) and Matthew Yum (level I) ... etc.

All these took place at the Intercity Meeting where a lot of Chinese celebration gimmicks were showcased and literally created a lot of noise.

Now don't you find the past month as pretty international? That's what Rotary is meant for. Fostering friendship and cooperation amongst Rotarians from different parts of the world to better serve those in need.

October is Vocational Service Month and I'd like to introduce to you a vocational service project by a club in the US featuring mentorship to young people which our club has also been actively involved for many years. Perhaps we can pick up some new ideas from this for our own youth projects.

### Michigan club gives students a chance to explore their dream jobs

By Ryan Hyland    Rotary News -- 5 October 2012

Benton Harbor, Michigan, USA, is helping junior and senior high school students develop careers by connecting them with mentors who are leaders in industry.

Participants are selected by their schools and given the opportunity to explore their professional interests with behind-the-scenes visits to area businesses. They also meet one-on-one with mentors, who share their experiences and advise the students on how best to pursue their dream careers.

Since the club launched the [mentoring program](#) in 2008, Rotarians have put more than 300 students in touch with professionals including lawyers, doctors, a Fortune 500 CEO, broadcast journalists, police officers, and a professional football player. Two Rotarians accompany each student who meets with a professional. The students are then required to report on their experiences at a meeting of the Rotary club.

"This program leverages Rotary's amazing network of professionals to help young people connect with their career interests," says Jackie Huie, program chair and president of the St. Joseph & Benton Harbor club.

"We have not had a vocation that we couldn't find for a student." The experience gives teenagers a chance either to reinforce their career choices or to rethink them, says Huie.

Teri LaForest, a senior and a 2012 program participant, wanted to become a meteorologist. The club organized a meeting with a meteorologist at the local TV station. After the visit, LaForest concluded that that job might not be for her but that she still had a passion for environmental science.

### Visit sheds light on career path

"It was really neat to be able to see the TV studio, an opportunity I would not have had without Rotary," says LaForest. "Visiting the station actually made choosing a career easier, but tougher at the same time. I realized that I'm not very interested in the broadcast side of meteorology. The scientific side, however, I found very interesting. The experience got me thinking about possibly going into a field that combines engineering and environmental science."

David Reimers, a second-year student at Michigan State University, met with Whirlpool Corporation CEO Jeff Fettig when he was a senior in high school. Reimers says that talking with Fettig confirmed his career choice, and he points to Whirlpool as the company he'd like to work for. "I know for sure that business is the right field for me," says Reimers. "In high school I was a bit naive thinking about the difficulty of actually becoming a CEO and the stress involved with the job. In college I have really tried to focus on the advice Mr. Fettig gave me, which was not to worry about your next job, just work as hard as you can at the job you have and the rest will take care of itself. If I don't quite make it to the top I will be all right with that, as long as I have worked my hardest to get there. I now know that the only way to the top is from the bottom, and there are no shortcuts."

Huie says the program's success inspired the formation of the Interact Club of Saint Joseph - Benton Harbor in February. After just two weeks, the club membership grew to 60 students. Huie says clubs from Scotland, New Zealand, India, Peru, and Japan have inquired about starting similar programs since she shared details about it with Rotarians at the 2012 RI Convention in Bangkok.

"This is a proven, successful mentoring initiative that directly links youth and communities with Rotary," says Huie. "It's attracting youth to Rotary and is a lasting catalyst for club revitalization, community relevance, and global membership growth."

## RI President Sakuji Tanaka's Visit to D3450 17 to 20 September 2012

Ron Chung / Claire Mak

Rotary District 3450, led by DG Kenneth Wong, pulled off a MADdening Rotary miracle – Rotary International 2012/13 President Sakuji Tanaka spent a whole week with the District.

What does this mean? How MADdening was this?

Considering the fact that there are about 360 days a year. Also, there are 530 plus Rotary districts internationally. How much time can the RI President spend with each district? The simple math says 365/530, which means less than 0.7 day per district; but that is without taking into account of travel time. So, in the week of Sept 13 – 20, RI President Tanaka san spent ONE WHOLE WEEK with D 3450, capping with the 919 Intercity meeting dinner as the finale. What a treat to D 3450! What an accomplishment pulled together by our DG Kenneth.

### 17 Sep 2012 (Monday) – Welcome

After joining the District Visit to Mongolia from 13 to 16 September, RI President Sakuji Tanaka arrived Hong Kong on 17 September and was warmly welcomed at the airport.

PDG Anthony Hung and DGN Belinda Yeung organized a welcoming banquet at the Regal Airport Hotel. The menu was really special and it was at the courtesy of DG Kenneth.

### 18 Sep 2012 (Tuesday) – Launch of Rotary Coach

RI President officiated the launch of the Rotary Coach at the West Kowloon Waterfront Promenade.

### 19 Sep 2012 (Wednesday) – Intercity Meeting

The finale showcasing the intercity meeting was pulled together in lightening speed by the host Area 6 clubs, which further proves that with Rotary solidarity, miracles can happen.

The evening started with a Photo-taking & Cocktail Reception.

At 7:30 pm Dignitaries and Presidents marched-in.

The Opening Performance by Buddhist Mau Fung Memorial College Cheerleading Team "Ever" captured everyone's attention.

Proceedings formally started with DG Kenneth declaring meeting open and the singing of the Rotary Song.

After introduction of Rotary Dignitaries & VIPs DG Kenneth gave his Welcome Remarks.

As the 919 dinner features the RI President, let's find out more about him. This task was effectively accomplished by a Youth & Peace Dialogue - IPDRR Edwina Chung and Rotaractor Karen Lai were tasked to interview R.I. President Tanaka san on-stage.

In the process we found out that Tanaka san's early aspiration was to become a "prime minister" - not in a political sense, but a "prime minister" in being the best in the field. He also emphasized the importance of giving the new generations the special care that they need including the need to cherish the young generations, listening to them and adapting to their world because their world is different from ours. In the process, we also need to be conscious of the fact that the younger generations also need advice. It is through a fine balance between adapting to their world and providing them with sound advice that our organization can go on.

President Tanaka also shared his view on peace with "Peace through Service" being the theme for the current Rotary year. His insight brought us not only peace from an international perspective, but peace must start from self, from our family, our club, our area, our district, then the region, then Rotary International and beyond.

DGE Eugene Fong then gave a Vote of Thanks. The message from the DGE built on the message by RI President and completed with the following powerful words, "Rotarians must defend peace at all costs." This was then followed by

Souvenir Presentation by DG Ken.

Dinner then commenced with mingling and greetings.

As for performances for the evening, there was the refreshing Harmonica Performance by Hotung Secondary School.

Holy Carpenter Secondary School students also gave an upbeat Hip Hop Dance Performance.

While there are many other significant speeches and performances during the night, another highlight for the evening was the induction of new members from 7 clubs in the District. Congratulations to Rotary Clubs of Happy Valley, HK Island East, LKF, Metropolitan HK, Shouson Hill, SoHo HK and Tsuen Wan.

Meeting was declared closed at around 10 pm when Photo Session by Area took place.

The evening ended amidst the lovely tunes of *Vive le Rotary*

## **20 Sep 2012 (Thursday) – Farewell**

The 8 days program in receiving Rotary International President Sakuji Tanaka ended on 20 September when he and his translator Eiko had left Hong Kong.

We are, indeed, lucky to be Rotarians in a year which "Peace" is the theme. We are, indeed, lucky to be Rotarians in a year which the RI President spent a full week with us. We are, indeed, lucky to be Rotarians in a year which the DG pulled off a MADdening feast.

## Taiwan Charter Night Oct 6 – 8

Ron Chung

From a sister club relationship perspective, RC Tai Po and RC Taipei have been relatively close.

Every year, we support each other's projects. Every year, we join each other's major functions - they come to our annual ball, we attend their charter night.

This year, thanks to the support of DG-ne Lucia, IPP Tsubaki and Connie, (II-) PP Frankie (I have this respect to PP Frankie and he was IPP last year, so he is now, to me, II PP, which is more special than a PP) and Creamy, PP Man and Jackie, PP Wilson and Wanda, we had a delegation of 10 (Alice was there, but she had to leave early.)

We started with a private party hosted by our old friend PP Ampo at a private party room in his office building... if you think that's impressive... there's more... the building sits on a hillside overlooking 101.

Welcome Dinner at The K Room in Ampo's office

Representing RC Tai Po were (in physical presence) myself and Alice, IPP Tsubaki and Connie san, PP Man and Jackie, PP Wilson and Wanda. DG Ken, DS Peter, PE Francis, VP Natalie, PP Claire, PP Matthew, and PP Jacky joined us over the WhatsApp (how about technology...)

As we greeted and rekindled with each other, PP Ampo said to each and everyone, "no speech" (I can definitely go with that, I thought.)

PP Ampo and Pres. Ron started with the 3L Glenmorangie

The main event for the evening was, of course, great fellowship. We were joined by a 3L bottle of Glenmorangie (CP Donald's favorite whisky). We were going to save some for our CP, but either PP Ampo or PP Story, or perhaps it was President Tom from RC Diamond, or Assistant Secretary (our equivalent of DDS...) or VP Eugene finished it when we were watching the Tai Po choir singing.

Welcome Drink: 3L and miniature Glenmorangie Whisky

Dinner with RC Yokohama

The next evening, we were invited by President Jan for a meal at a special location. The restaurant, 青葉新樂園, is in an 80 years old building in a historical cultural area. It serves traditional Taiwanese

food. Do give it a try, you have to experience it. This is something that words can't fully describe. That night, in addition to meeting up with our old friends at RC Taipei, we also met some new friends from RC Yokohama, very nice people. They do not have an annual ball, but have indeed invited us to their Christmas party on Dec 18, any interest?

On Monday, most of our team went to our traditional golf event.

The Golfers

I, somehow, got dragged by President Tom and AS to the district swimming gala (I think I was "under the influence" when I promised them.) Tai Po did fine at District 3480! They now identified me as a president who can drink alcohol as well as water!

Pres. Ron won Champion in Taipei District Swimming Gala

Finally, the grand finale, the Chartered Night. This was a special night for RC Taipei as our sister club's PP Gary is going to be the RI President in 2014 – 15. Imagine THAT! The first Chinese president at the RI. We are extremely proud of PP Gary and our sister club!

Group Photo with RI President Nominee Gary Huang

RCTP was seated right in front of the stage, next to the table where PP Gary sat (very nicely strategically placed, so RCTP can add to the atmosphere, and our team did.)

RCTP at the Oktoberfest-Themed Charter Night

Otherwise, I made my speech, we exchanged gifts, and, the usual RCTP donating 10,000 HKD to RC Taipei for their projects (now you see why we are sister clubs?)

Pres. Ron exchanged gift with Pres. Jan

Connie san also got her birthday celebrated with almost 300 people there and publically showing her drinking skill was the price to pay.

Pint of Beer for B'day Girl Connie

Talking about drinking, RC Taipei also had a beer drinking contest for teams of 2. A total of 8 teams were formed with representatives from Germany, Taipei and Japan (tough competitors.) RC Tai Po had 2 teams, and guess which Tai Po team gotten into the final? Tai Po shined!

RCTP PPs won 1st and 2nd in Beer Drinking Contest

It was great fellowship, lots of pictures, lots of drinking, and not much else can be remembered! But it was good and Tai Po will be back!

## At your Service

# Launch of Rotary-HKCSS Partnership 29 September 2012

Claire Mak

60 Rotarians and over 20 NGO representatives enrolled for the event which took place at KCC. This initiative saw Rotary Clubs confirming partnership with 13 NGOs in 13 projects to support our youth-in-transition. President Ron, Service Vice Chair Vikky and Rtn. William represented our club; and our partnering organisation was none other than our long time partner Hong Kong Children & Youth Services (our service partner in the Star Reaching Project) and was represented by Mr. Eugene Chau and Ms. Mel Kwan.

Reception started at 9:30 am. Upon arrival of The Hon Matthew Cheung Kin-chung, GBS, JP, Secretary for Labour & Welfare, the program started immediately with opening remarks given by Governor Kenneth and Ms Christine Fang, Chief Executive of the Hong Kong Council of Social Services. Then it was The Hon Matthew Cheung who gave the keynote speech.

Signing ceremony and photo taking which followed was done on a partnership basis.

One representative from each Club was invited to sign on the backdrop together with the respective partnering NGO representative.

3 guests were then invited to further share with us about Youth services:

Mr. Cliff Choi, Business Director of HKCSS spoke on “*Learning from international experience in supporting young people in transition from school to work - insights on Hong Kong programs & introduction of the M.O.R.E. model.*”

Mr. Gary Tang, Supervisor, Hong Kong Federation of Youth Groups discussed “*How to motivate young people for career planning?*”

Dr. Chui Yat Hung, Lecturer, Hong Kong Polytechnic University gave insights on “*Understanding young people and providing effective student guidance.*”

After the coffee break, Breakout Sessions were held where the 13 NGOs were assigned to 3 separate groups and gave brief presentations about their projects, leaving time for discussions and Q&A.

The event ended with closing remarks by District Governor Elect Eugene Fong, Chairman of our District Poverty Alleviation Committee. Hopefully, this launching ceremony marks the start of a focused service-oriented year.

One of the major initiatives of District this year is Poverty Alleviation. DGE Eugene Fong has worked with The Hong Kong Council of Social Services and invited proposals from NGOs on projects which support youth-in-transition. These NGOs would form partnership with Rotary Clubs in Hong Kong. Each partnership represents a unique collaboration between one NGO and Rotary club(s).

## “STEP UP INFINITY”

Our club identified a new project with Hong Kong Children Youth Services 香港青少年服務處. The project aims at helping youths in Tai Po and the North District by forming a dancing team for 深宵街頭青少年:

Project name:	<b>STEP UP INFINITY</b>
Project period:	11/2012 – 12/2013
Target participants:	30 youths
Project budget:	HK\$30,000

## District Vocational Service Seminar

16<sup>th</sup> October, 2012

The Marco Polo Hong Kong Hotel

Ron Chung

Speaker: Mr. William Fung of Li & Fung Group

Topic: The current US and Europe Economic conditions and how they affect Hong Kong

Pres. Ronald, DS Peter, PP Wilson, IPP Tsubaki and PE Francis attended

Basically, the speaker looked at the economies of US, EU and China, and how one should plan strategically. His view was that US is in the process of recovery, but the EU has still a long way to go. China is on a new mission to transform itself from the world's factory that relies on the economic health of others to a self-sustainable economy. This should take another 20+ years.

Hong Kong will benefit from all these if the people in Hong Kong work hard to find their own niche opportunities. However, if the people in Hong Kong stay in the complaint and rely-on-government mode, there will not be much hope.
